BFL2010
Fibre Metal Cutting Laser

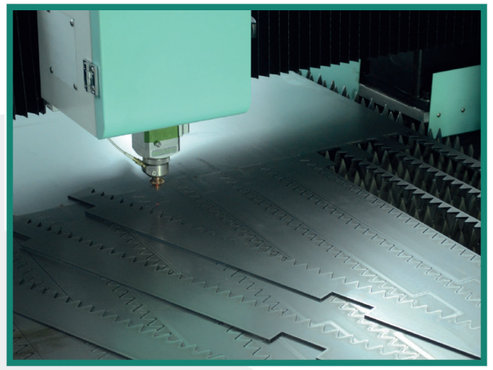
boxford

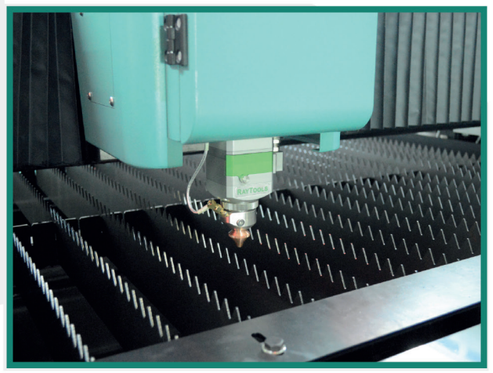
A range of metal cutting fibre laser systems built to Boxford specifications. Our high precision metal cutting fibre lasers are ideally suited to all kinds of training, prototyping and low to medium volume manufacturing applications.

Cutting-area 2x1 meter

Materials which can be fibre laser processed:

Mild steel
Stainless steel
Aluminium
Anodised aluminium
Zintec
Galvanised steel
Brass
Shim steel
and more...





Boxford Fiber metal cutting lasere inkluderer:

- Høy HMS faktor med fullt lukket kabinett for optimal røyk og avfallshåndtering
- Kraftig og stabilt konstruksjons- og bevegelsessystem som inneholder høykvalitets taiwanske lineære føringer sammen med japanske servo-drivere, slik at hastigheter på opptil 40 meter per minutt kan oppnås
- Integrert PC-kontrollsystem
- Kapasitivt autofokus-system for automatisk justering av brenn-område
- Integrert rød punkt-strålepeker for plateplassering / orientering og simulering
- Overlegen fiberlaser med opptil 100 000 timers levetid
- Integrert skjærebord med avtakbare lameller og material brett

C02 laser cutting & engraving machines

Our range of non-metal laser cutting and engraving machines are built to Boxford specifications, giving customers easy to use and fully integrated laser cutting capabilities, to produce work of the highest standards.

All machines in our BGL laser range include **Lightburn laser software** and a **Lightburn ready 4K camera** for design positioning, image tracing and monitoring.

Vi gratulerer med valg av nye Boxford-Maskiner:

Tryggheim Forus vgs
Ølen vgs
Stangnes vgs
Drammen vgs
Technip FMC
Sørumsand vgs
Glemmen vgs
Holmestrand vgs
Haugaland vgs

Materials which can be laser processed:

Acrylic
Wood
Card
Cork
Foam
Glass
Marble
MDF
Paper
Rubber
Stone
Slate
Laminated plastics
Anodised aluminium
and more...

Boxford C02 lasers include as standard:

- Lightburn laser software (with 12 months of updates)
- Integrated 4K camera for design positiong & tracing
- Pre-configured & fully editable parameter library
- Auto-focus
- Red dot pointer
- Honeycomb and knife material bed
- Full motorised Z axis
- Integrated water cooling system for C02 laser source
- Integrated compressor for air assist
- 12 months machine warranty
- Unlimited UK after sales and support
